1. What are the effects in test estimation.
    a. Use of supporting Tools or technologies
    b. Complexity of the application
    c. Learning and Training
    d. Scope of the project
    e. Environment set up
    f. Coding/Scripting and Review
    g. Implementing the framework
    h. All of the above

    Ans: h. All of the above

2. Which is the supermost class of all classes in java?
    a. Object Class
    b. Abstract Class
    c. String Class
    d. All of the above

3. Which of the webdriver does
    a. Webdriver uses javascript browser windows
    b. webdriver itself

4. TestNG Abbreviation
    a. Test next generation
    b. Test next generations

5. Select the component which is not part of Selenium suite?
    a. Selenium Web

6. What is IDE?
    a. Integrated Development Environment

7. Which is the language not supported by Selenium webdriver?
    a. ASP

8. Select the language which is supported by Selenium webdriver?
    a. Perl
    b. ASP
    c. SQL
    d. Cobol
Ans : A

9. Locate the innertext of element by using Xpath
    a. tag[@contains(inner text)]

10. Verify the text present in the webpage?

11. What is parameterization testing?

12. What are the advantages of automation testing?

13. What do you need to create your own Selenium commands.
    This is not possible.
    In user-extensions.js file
    In any JavaScript file, but the preferred name is user-extensions.js for consistency
    In any Java, C#, Python, Ruby, PHP or Perl file

    Ans > c

14. Is Webdriver a component of Selenium?
    a. True
    b. False

    Ans: Yes

15. Which command with close an open browser
    a. quit
    b. close
    c. timeout

Ans: close

16. Default timeout for waitfor?
    Ans: 30 sec

17. Which datatypes does not take parameters
    a. list
    b. array
    c. set
    d. map

18. If a class has same method name but different parameter
    a. method overloading
    b. method overriding

19. Command used for press enter
    a. Enter
    b. Return
    c. Type

20. Difference between quit and close
    a. both are same
    b. quit closes all the browser with pop-up
    c. close works with alert pop-up
    d. __ does not work with alert pop-up

21. Selenium controls browser using
    a. itself
    b. by using javascript
    c. None of the above

22. Which class is parent class for every class in Java?
    a. Object
    b. Abstract
    c. Interface
    d. None

23. Where we can store cookies?
    a. client side
    b. server side
    c. both

24. Appium tool is used for automation testing of Android apps on IOS system?
    a. True b. False

25. DOM fullform?
    a. Document Object model

26. Can Selenium be applied for "Flash" application.
    a. Yes
    b. Yes, partially
    c. No

27. Which is the super class of every class in Java?
    a. Object class
    b. Super class
    c. Sub class
    d. this

28. What is the instance of fierfoxdriver? /instantiation of firefox creation
    a. Webdriver driver=new Firefox driver

29. Selenium IDE support which browser?
    a. Mozilla firefox
    b. Google chrome
    c. Safari
    d. Opera Mini

30. Which is not a component of Selenium Suit?
    a. Selenium IDE
    b. Selenium Grid
    c. Selenium RC
    d. Selenium Web

31. What are the invalid locator?
    a. By.id
    b. By.password
    c. By.name
    d. By.linktext

32. Which method will execute first in Java?
    a. static

b. main()
c. finalize
d. None

33. Is this command deselectAll() present in Selenium?
    a. True   b. False

34. What are the Java loop structure concepts
    a. For Loop
    b. Enhanced for loop
    c. if statement
    d. while loop
    e. do while loop

35. In Selenium, test reports will be generated in html and xml format?
    a. True   b. False

36. How can we select background color in HTML?
    a. CSSValue("Background-color");
    b. CSSText("Background-color");
    c. CSSvalue("bg-color");
    d. None of these

37. How can we get the attribute value "inner text"?
    a. css=tag:attributes("innertext");
    b. css=tag:value("innertext");
    c. css=tag:text("innertext");

38. What are the conditional statement
    a. do and for
    b. if and switch
    c. for and if

39. How can we pass the text in a text box.
    a. sendkeys()
    b. sendkeys(text)
    c. sendkeys("text")

40. What are the default timeout for waitfor?
    a. 18 sec
    b. 20 sec
    c. 30 sec
    d. 40 sec

41. Which command is used to display output in Selenium IDE
    a. echo
    b. printf
    c. display

42. Could you create your own command in Selenium?
    a. C#, Java, Python using this language

b. we can't create our own commands in Selenium IDE
c. We can create using import, Javascript jar/war files.

43. Which is used to invoke the object in class.
    a. this
    b. import

44. Which is not a type of webelement
    a. gettext()
    b. size()

45. Implicit wait applied on all object where as explicit wait applied on particular object.
    a. True b. False

46. What is the interface in Selenium
    a. Webdriver

47. Is webdriver a component of Selenium or not.

48. How to launch a browser

49. Which access specifier is used to access classes from different packages.

50. Which browser supports Selenium IDE
    a. Mozilla firefox

51. which method is used to display output

52. which command used in Selenium to print output
    a. echo

53. Which is the superclass of all the classes in Java

54. Which of the following is not exception
    a. no such element exception

55. driver.geturl("www.google.com")will throw an exception or not
    a. True
    b. False

56. Why we use following :sibling Xpath
i.   It selects all sibling of current node

57. Which method is called after click() and wait()

58. Which of the following is used to check presence of element
    a. verifyelementpresent
    b. verifytextpresent

59. When do we automate test cases
    a. multiple data set

b. For duplication of data
c. regression data
d. All of the above.

60. Method used for radio button

61. How to set maximize window of x and y?
    a. driver.manage().windowsize(new dimension(400,500))
    b. driver.mangage().setsize(new dimension on 400, 500)
    c. driver.manage().windowset(dimension(400, 500))
    d. driver.manage().dimension(400,500)

62. Which command line using Flag in mozilla firefox?/ What is the flag symbol of firefox driver?
    a. -B
    b. -T
    c. -C
    d. -D
    e. -F

63. which access specifier using one package to another package
    a. private
    b. public
    c. modifier
    d. etc

64. Without implicit automatic parameterized which constructor used in explicit?
    a. default constructor
    b. null constructor
    c. empty constructor
    d. None of the above

65. Selenium RC accepts javascript?
    a. true b. False

66. Xpath axis is related to set of current node.

67. why absolute path not suitable.

68. what are good tools for testing web application.
    a. RFT
    b. UFT
    c. Selenium
69. The following codes both print same?
    System.out.println(driver.getTitle());
    System.out.println(driver.findElement(By.tagName("title")).getText());
    A. true
    B. false

70. In click and wait what is automatically done.
    A. Page to Load
    B. Text Present

C. Window to Load
D. Frame to load

71. Can Selenium be applied for "Flash" application.
    a.   Yes
    b.   Yes, partially
    c.   No

72. Interface used in Selenium
    a. Application UI
    b. Select
    c. Web Driver
    d. Web Element

73. Sibblings xpath(All descendings(children,grandchildren etc) from the current node?

74. In what way the naming and visualizing of class and its contents can be viewed?
    a. Package b. Interface c. Object d. None of the above

75. Which command in Selenium is used for enter key from keyboard
    a. act.keys(keys.ENTER)
    b. act.enterkeys(keys.RETURN)
    c. act.enterkeys("Enter")

76. How to refresh the browser?

77. Jenkins is a Continous Integration Tool

78. TestNG is a Tesing framework

79. Maven is a build automation tool

80. What are the statements in Java?

81. What are the framework used for Selenium?
    a. Hybernate
    b. Apache Maven
    c. Spring Framework
    d. None of these

82. Which cammand not used for assertion
    a. Assert
    b. Verify
    c. Wait for
    d. Wait

83. How can we pass parameter in testNG class
    a. with .xml file
    b. with class itself.

84. Which collection type is there which we don't pass parameter.

a. map
b. list
c. arraylist
d. set

85. Which method is used to read a string from input stream?
a. read()
b)get()
c)readLine()

86. Which method is used to find element is Present or not?
a. findelementPresent(By.string)
b. findelementPresentLocated(By.string)
c. findelementPresentavailable(By.string)

87. Which is correct to get page title
a. A & B
b. SOP(driver.findelementBy(By.name("title").getText());
c. SOP(driver.getTitle());

88. Regular expression which is used for (Anything or Nothing);
a.   .*(dot star)
b. *.(star dot)
c. *?

89. Appium is used for ios & Android. true or false
a. true
b. false

90. Which driver command used to instantiated for firefox driver.
a. browser=WebDriver firefoxDriver();
b. Webdriver driver=new FirefixDriver();

91. Which command is used to get title from page.
a. driver.getTitle();
b. driver.findElement(By.tagName("title").getText());
c. A & B

92. In Agile methodology we are not going to automate when requirement change everytime.
a. True
b. False

93. isSelected --> select correct method

94. What is the command for checking window size

95. Frameworks used in selenium
a. Agile
b. Hybrid
c. Data driven
d. None of these

e. a & b
f. a & c

96. How can we achieve parameterization in selenium
    a. By writing parameters in testing.xml & pass to test class
    b. By writing parameters in class file & pass to test class
    c. None of these
